Dear Sir,

As you are aware work has been proceeding this summer on the sewerage treatment and reticulation scheme in Perisher Valley.

I am pleased to advise that your establishment is now connected to the sewerage system which is in use.

The attached diagram gives details of the connection between your establishment and the sewerage reticulation mains and should be kept with other plans of your buildings for future reference.

Yours faithfully,

  
J. Robson,  
Superintendent  
KOSCIUSKO DISTRICT

G20.
